The Medieval and Modern World | Comprehensively charts Western astrology from 30,000 BCE up to the 17th century, with particular focus on its magical, political and apocalyptic movements and use in everyday life throughout history. This is the first comprehensive examination of astrology's origins and examines the foundations of a major feature of popular culture in the contemporary west, one which has its origins in the ancient world. Campion explores the relationship between astrology and religion, magic and science, and explores its use in politics and the arts in a fascinating and readable fashion. | Culpeper, Nicholas                | Astrological Judgement of Diseases  | Nicholas Culpeper (1616 - 1654), is best known today for his English Physician, a comprehensive guide to the medicinal uses of native plants and herbs, the first such book published in English. Culpeper, a Puritan, was the son of a clergyman. In 1634 he spent a year at Cambridge, where he learned Greek and Latin, which enabled him to study old medical texts. He was apprenticed to an apothecary and started his formal practice in Spitalfields, London, around 1640. Culpeper supported the Parliamentary side in the English Civil War, suffering a severe chest wound in 1643. After recovering he returned to his medical practice in London, where he established a reputation as an outstanding healer. War wounds combined with overwork led to his death by exhaustion in 1654, aged 37. According to his widow, he left behind some 70 unfinished manuscripts. Astrological Judgement of Diseases from the Decumbiture of the Sick, was published posthumously. This book is the astrological companion to his better-known English Physician. In this book is the distilled experience of a very busy practitioner. The text, while newly reset, retains the spelling and punctuation of the original. |  |

| Garrison, Cal                                  | The Astrology of 2012 and Beyond             | In October 2007, a new phenomenon appeared in the sky, was named the Comet Holmes, and is being claimed and acclaimed by the Hopi Nation as the Blue Star of their prophecy. The Blue Star is the harbinger. Between now and somewhere in 2013-2014, when the Red Star appears, great shifts in human consciousness will continue. With the fulfillment of the Mayan Long Count calendar in 2012 and the appearance of the Red Star, many are predicting that human consciousness will rise to the next level. Although there may be catastrophic events associated with this period, and life as we know it will surely change, if we do the work, this will not be the Apocalypse. In The Astrology of 2012 and Beyond, Garrison explores the changing sky, starting with the movement of Pluto into Capricorn, a region it hasn't inhabited since 1733. It's revolutionary times coming for individuals, governments, and the planet. Garrison draws on traditional astrology and her understanding of the Hopi prophecies and their relationship to the Mayan 2012 predictions, as well as the ending of the 13,000 year masculine kundalini cycle, to offer practical advice and information that will help us evolve through the next four years, including what to |

Dr Gauquelin discovered in studying the birth of 25,000  European professionals listed in "Who's Who", that certain planets were found more frequently at the rising or culminating positions in the horoscope. For example, Mars ascended or culminated in the case of athletes with the probability against chance distribution ranging from 1 in 50,000 to 1 in 1,000,000. This work has been internationally recognised as the most important scientific support that Astrology has ever received. Dr Gauquelin has validated the existence of a correlation between the state of the solar system and human experience.  |

Modern herbalists and homeopathists descend from this tradition, but all too often have forgotten the rich lore of astrological data at their disposal. Now Geddes recaptures this information, demonstrating the cosmic dimension in modern medicine. Beginning with sun signs, she shows how each human type has its individual needs for health and healing.   |

He explores the significance of the constellation Orion by investigating its importance in ancient Egypt, in other kingdoms of the Middle East and in esoteric knowledge   |

| Ideman, Richard  | Through the Looking Glass  | Teaches us how to look at the natal chart to gain rich, new insight into our deepest nature - the hidden agendas, childhood patterns and the belief systems that invariably shape our lives and relationships. Combining the symbolism of astrology, mythology and Jungian psychology, he teaches us how to break free of the entrenched attitudes that limit and restrict us. Above all, Idemon provides new depth and dimension to the understanding of the most important aspect of our lives - how we reach out and interact with others. He tells us that the important people in our lives are like looking glasses - mirrors of our unfolding process toward a fuller consciousness. By looking into these mirrors we can transform ourselves and thus change the relationships which are so important to us. |  |

| Ideman, Richard  | The magic Thread   | For centuries, philosophers, alchemists and psychologists have been intrigued and fascinated by the intricacies of the labyrinth as a metaphor for human experience. Richard Idemon sees the birth chart, a symbol of inherent universal order, as a labyrinth—a logical but complicated and elusive structure. The interwoven symbols in the horoscope are made up of a single thread that, when unravelled—like the magic thread of Ariadne—lead us through the maze to the heart of the chart and our own nature.   |  |

| Lehman, Dr J. Lee   | The Book of Rulerships                            | First and foremost, this is a reference book on rulerships; second, this is a classical concordance. Although astrological works dating from the seventeenth century and earlier lack explanations or discussions of the methods of assigning rulerships, we know that rulerships were assigned, and continue to be assigned, right up to the present moment, as new concepts/things are invented/discovered. Dr. Lehman examines how this process was really practiced in the classical period to give us insights into how to proceed today.                               |  |
| Lehman, Dr J. Lee   | Classical Astrology for Modern<br>Living          | Using methods developed by ancient Astrologers, Lee Lehman works to strengthen techniques used by Astrologers today. The task of Classical Astrology today is twofold: to recover these techniques and to evaluate and understand them within a modern context. She presents both techniques and the logic behind them to radically improve all Astrology, regardless of whether the practitioner chooses to adopt a Classical or Neo-Classical approach. She analyses the charts of several famous people and events to demonstrate the techniques and their effectiveness. |  |

Unlike other star charts, it recognizes that the time spent in your mother's womb is crucial to shaping your personality; that's where the story must begin. So, it covers the conception point, the octave of gestation, and more, along with interpretation tables. The way is here. |  |

Incidentally, although horoscope comparisons are often done to see the potential for a successful romantic relationship or marriage, such comparisons are equally valid for any two people including siblings, co- workers, etc.  |  |

| Sulivan, Erin                      | The Astrology of Midlife and Aging  | Between the ages of thirty-seven and forty-one, something mysterious takes place within the psyche. Jung called this phase our "unlived life," assuming rightly that midlife did not inaugurate a time of rapid decay, loss of libido, and inevitable death—but rather ushered in a period in which one might review one's life and build upon a strong foundation toward the next phase of adulthood.  |  |

Saturn assists the modern hero and heroine, during its transit around the zodiac, by destroying the old and outmoded within, and throwing us periodically into chaos, which invariably generates a creative transformation of purpose in our lives. |  |

| Tierney, Bil                       | Twelve Faces of Saturn  | Saturn is often viewed with uncertainty and unease, but in this text, Bil Tierney sees Saturn as a key for liberation, as a guardian angel planet, as indispensable to psychological maturity and material stability. Tierney explores Saturn from the perspective of the natal sign and house. He also views it through each element and modality, and through astronomy, mythology and metaphysics.   |  |

| Tierney, Bill                         | Dynamics of aspect analysis   | The discussions of aspect configurations are more detailed than I've seen elsewhere, dealing in depth with different sorts of T-squares and grand trines while also treating some rarer combinations. The chapters on unaspected and retrograde planets are also very helpful. Perhaps the best thing about this book is its discussion of dissociate (out-of-sign) aspects; these are a problem that many treatments gloss over, but Tierney deals with them at length in a plausible way  |  |

The history of medical astrology, and the predisposition to pathologies as indicated by the chart, are explored.  |  |
| Van Toen, Donna   | The Astrologers Node Book               | Donna Van Toen provides a truly fresh approach to those mysterious imaginary points in the horoscope - the Nodes. Traditionally, the nodes have been interpreted superstitiously as points of good and bad luck, or they have been seen as the karmic catch-all for suffering, or they've been dismissed as meaningless. The author sees the opposition of the Nodes as a point of conflict between growth and stagnation, and working from this premise, has written a book designed to help readers determine how to balance the Nodes, how to find that missing part and develop it, and how to keep the Nodes balanced.   |  |
| Vantoen, Donna    | The Mars Book                           | The most complete book about Mars ever written, author Donna Van Toen discusses Mars as it relates to personality, energy, occupational motivation, luck, and love, as well as Mars in natal, transiting, and progressed positions. She explains how the planet symbolizes your inner motivation, the esoteric role of Mars, and how Mars relates to karma. The Mars Book features chapters on Mars in relocation (including delineation); Mars and your luck; interpretations for transiting and progressed Mars in the houses, signs, and aspects; Mars and your love life; intercepted Mars; interpreting the Mars Return chart; Mars and your inner motivation; example Mars analysis; and Sun-Mars quickie synastries for relationships. |  |

| Walters, Derek    | The Complete Guide to Chinese Astrology | Chinese astrology predates its Western cousin by millennia, and this comprehensive text traces its history from the earliest records to the present, and explains the founding principles of the art. In-depth analysis offers insight on all the essential aspects: its foundation in astronomical observation, its development in historical context, and the methods used in interpreting the portents. There are also comprehensive studies of popular concepts such as Feng Shui, the Chinese calendar, and divination plates. The inclusion of actual Chinese horoscopes from different periods provides an intimate, unmediated look into this ancient form of divination.   |  |

The reader is shown the method for 'sight recognition' of various Aspects making simple a procedure which, to many, often appears a complicated process. The effects of the Major and Minor Aspects in their differing locations, together with the meanings, are dealt with in detail and phrased in usable, everyday language. The value of this book to the student is enhanced by the inclusion of a detailed description of the influence of the 'Progressed' Moon and of the 'Progressed' Aspects of this luminary. As one of the essential requirements in the tabulation of a horoscope is the time factor, a Chapter has been devoted to 'World Time Differences'. The method of working has been given a reasonably comprehensive list of countries showing the extent their time differs from that of G.M |
