Chairperson's Report

On 4th August at the South Perth Learning centre we used the Go-To-Meeting for the first time with Peter Burns doing a presentation on Solar Transits. We experienced a few minor glitches but overall it was a roaring success and was well attended. The committee feel very

confident that we can use this method to bring our members more quality astrological topics next year. Of course, we will still have normal presentation most of the time, but it gives us another option when speakers are not available.

Peter's presentation was all about using the solar transits to pick up everyday events which may be missed with slower moving outer planetary transits. As these solar transits last about six days, using a three-degree orb, he showed us how to create a yearly calendar on Solar Fire with all the solar transits indicated in the appropriate monthly boxes.

Peter generously provide each attendee with a seventy-page PDF of the presentation, which was good because there was a lot of material to absorb.

Our next speaker on 15th September is Zane Stein talking on the Transits of Chiron. It will be good as most of us have heard a lot about natal Chiron but not so much about transiting Chiron. Zane is the master of the Centaurs and we are lucky to have his expertise on this little understood topic.

I would love to catch up with a few of you at this next event and I hope you are all making good intentions with this amazing new moon in Virgo with five planets (including Sun and Moon) all conjunct in early Virgo.

Best wishes,

Jeff Farrow

Presented by ... *Zane B Stein*

Astrologers began calling Chiron "The Wounded Healer" only months after its' discovery. More than 40 years have passed and we have learned that it is much more than that. Zane will discuss how our understanding of Chiron has evolved, and why it is an indispensable astrological tool.
