## Chairperson's Report

### Chairpersons Report

Hello Members,

. Our last regular event for the year on 18<sup>th</sup> October featured Kim Akinta who delivered a Zoom session on the "Midpoints". It proved to be very interesting as I think a lot of us had either not covered midpoints previously or maybe just hadn't used them for a while.

Kim covered a lot of the history around midpoints from Bonatti and Alfred Witte right through to Reinhold Ebertin, Doris Greaves, Michael Harding and Michael Munkassey.

Kim also demonstrated an improvement on transits to the 90-degree dial, where you print off your midpoint listing (sorted by angle rather than sequence) from solar-fire, then manually insert the outer planetary movement range by degrees for the year to see which midpoints will be impacted. I found it was very good apart from when there are two or more planets transiting through fixed signs, as in Saturn and Uranus in 2021. Then it can be difficult to fit them into the small space between columns, but this is a small problem.

On 6<sup>th</sup> November six of us had the pleasure of being the live audience for Jeannette Lewis-Hill's BDB-5 presentation titled, "Our Number is Twelve". It was a great lecture and Jeannette went into the significance of the number 12 throughout history, plus gave us insights into the single digit numbers and how they correlated to the number 12. There was also some good information on Harmonic Astrology and much more. I would personally like thank Jeannette for representing our state in this important international on-line event which the whole world-wide astrology community participated in.

We have the AGM on the 22<sup>nd</sup> November at the Secret Garden Café in South Perth. Barbie Davidson will be retiring from the committee after many years in the secretary's position. Please come along and say hello to Barbie and wish her well. I will speak more words of praise about Barbie at the AGM.

Best wishes,

*Jeff Farrow*

## WA PRESENTATION

**Jeannette Lewis – Hill**

Weekend of 7<sup>th</sup> – 8<sup>th</sup> November

Time TBA

Online or join Jeannette at the South Perth Learning Centre

## Our Number is 12

This presentation explores one of the great foundations of astrology, the Number 12, which is profoundly connected with cosmic and earthly measure and life. Remembering that the chart is referenced to physical objects and spatial points, and yet expresses spiritual truths, it is natural to turn to Sacred Geometry and Sacred Number to better understand the building blocks which underlie our interpretations of the Heavens.

The mystical 12 is present in nature, psyche, society, and spirit. There are 12 signs and 12 houses; 12-fold geometry generates our common aspects. History has recorded sacred 12-tribe nations in which astrological symbolism is made manifest on earth, yielding great success for the culture during the time the system is in operation.

There is both solar and lunar knowledge in the duo of 12 and 13, where the mystical centre has been recognised in countless religions. Think of King Arthur and the 12 Knights, or Jesus and the 12 Apostles.

The study of 12 is uplifting, inspiring, and reassuring as we learn how deeply our art is based on cosmic structure.

## **AANSW PRESENTS**

### **ALAN CLAY**

**The Blessing of Ixion: Pluto's lawless brother**

**Saturday 14th November 2020**

**1:30pm EST (10:30am WST)**

*Online via Go-To-Meeting*

**Ixion** and Pluto both orbit at an angle to the ecliptic of all the other planets, pending half their time in the underworld. And the myth of Ixion tells us that this new dwarf planet energy in our

chart knows no boundaries and is passionately focussed on his own lawless goals. This talk explains why we need this energy now in our lives. At the spiritually evolved level he offers us the opportunity to define our own rules and live life on our own terms, while respecting the implicit agreements in our relationships and transmuting our base emotions.

New Zealander **Alan Clay** has a background as a humanistic astrologer inspired by the work of Dane Rudhyar. Over the years this has broadened into a study of the newly discovered Dwarf Planets. His book, 'Sedna

Consciousness, the Soul's Path of

Destiny' was very well received at it's launch at UAC in Chicago and reviewers have called it: 'a groundbreaking book', 'essential reading for astrologers' and 'a treasure trove of information and inspiration'. He has lectured at the State Of The Art Astrology Conference, the FAA Astrology Conference and the Breaking Down The Boards Astrology Conference.
